## LET'S BE MINDFUL

“ Because we don't think about future generations, they will never forget us.” ~ Henrik Tikkanen

Let us reflect on the depth of this quotes meaning.

Don't we all want to be remembered even long after we are gone from this earth? But how would we like the future generations to remember us- the choice is ours. Should they be grateful to us for bequeathing to them an Earth that is green and pollution free or with anger that we left for them a pollution ridden earth with no resources?

It is time for us to make our choice and I know that we all want to make the former as our choice. The only way forward then is to follow some simple sustainable development goals.

- No wastage of water
- Conserving electricity
- Zero hunger - feeding the hungry people at least on two occasions in a year.
- Zero wastage of food.
- Saying no to the use of one time use plastic
- No wastage of paper
- Planting more trees - gift a plant
- Cycle to school - Do not use fuel wastefully

These are some easy steps that you too can follow to do your bit for the environment.

You will be proud to know that SDG has been an important part of the vision and mission of the SRM Public School. We are proud to have been declared as a zero plastic campus. It is our duty to ensure that we do not carry any one time use plastic to school.

Our school has a Sewage treatment plant which recycles the water we use in restrooms, for watering the plants.

Our school has installed solar panels on the terrace which are converting solar energy for most of our electricity needs.

The beautiful architecture of our building is inspired by SDG to give ample natural lighting and fresh air to all the classrooms.

I am sure you will all be proud to belong to a school which is taking giant leaps towards ensuring a sustainable environment. Now the onus is on each of you to be the ambassadors of this change.

Let us strive together to make SDGs an integral part of our lives.

**Ms. Vijaya Nagarajan**  
Vice Principal (Academics)

## LET'S AUGMENT OURSELVES

1

The Metaverse is a term used to describe a virtual shared space, created by the convergence of virtually enhanced physical reality and physically persistent virtual space. The word "metaverse" is a portmanteau of the prefix "meta" (meaning "beyond") and the word "universe".

The Metaverse will be an open-ended, persistent, shared virtual world. It could be considered as an extension of planet Earth or cyberspace. In this sense, it is similar to other proposed concepts such as Cyberspace 2.0 or Global Brain 2.0.

The Metaverse is a term coined by Neal Stephenson in his 1992 science fiction novel Snow Crash. It's a virtual reality environment that's created by the collective efforts of people connected to the internet

The Metaverse is not just limited to VR or AR. It can also be accessed through any form of digital medium such as text, sound, or video. The key difference between the metaverse and the internet is that it's persistent and shared among many users.

The future of the Metaverse is not set in stone but there are a few possibilities. One possibility is that it will become a virtual reality that people can explore and interact with. Another possibility is that it will be an augmented reality where people can view and interact with real objects.

The Metaverse has been designed to be an open system in which all users are free to create their own virtual world or social network. The system will allow for the integration of real-world data into its blockchain, which will provide users with a more realistic experience.

**MS. RAGASUTHA**

Class Teacher 'IV' F

## MESMERISING MATH QUESTIONS

1. I am an odd number. Take away one letter and I become even. What number am I?

Ans : Seven (take away "s" and it becomes even)

2. Using only addition, how do you add 8's and get the number 1000?

Ans :  $888+88+8+8+8=1000$

3. What word looks the same backwards upside down?

Ans: SWIMS

4. Which three numbers have the same answer whether they are added or multiplied together?

Ans : 1, 2 & 3 digits

5. There is a three digit number. The second digit is 4 times as big as the third, while the first digit is three less than the second digit. What is the number?

Ans: 141

**Funtime:**

Try this mind-reading magic number game.

a. Write a four digit number twice to get an eight digit number

b. Divide the eight digit number by 137

c. Now divided the answer with the original number

d. You get the answer as 73

This is true for all such examples

**Example:** a. 12341234

b.  $12341234 / 137 = 90082$

c.  $90082 / 1234 = 73$

**MS. NAZIA KATTA**

Class Teacher 'IV' E

The Sustainable Development Goals (SDGs) or Global Goals are a collection of 17 interlinked global goals. The SDGs were set up in 2015 by the United Nations General Assembly (UN-GA) and are intended to be achieved by 2030. The Sustainable Development Goals are a call for action by all countries – developed, developing and underdeveloped – to promote prosperity while protecting the planet. They recognize that ending poverty must go hand-in-hand with strategies that build economic growth and address a range of social needs including education, health, social protection, and job opportunities, while tackling climate change and environmental protection.

ActNow is the United Nations campaign for individual action on climate change and sustainability.

## Start with 10 impactful actions

Every one of us can help limit global warming and take care of our planet. By making choices that have less harmful effects on the environment, we can be part of the solution and influence change.

**“Sustainable Development is the peace policy of the future”.**

**MS. SANDHIYA S**  
Class Teacher 'IV' B

1.	End poverty in all its forms everywhere.
2.	End hunger, achieve food security and improved nutrition and promote sustainable agriculture.
3.	Ensure healthy lives and promote well-being for all at all ages.
4.	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.
5.	Achieve gender equality and empower all women and girls.
6.	Ensure availability and sustainable management of water and sanitation for all.
7.	Ensure access to affordable, reliable, sustainable and modern energy for all.
8.	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.
9.	Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation.
10.	Reduce inequality within and among countries.
11.	Make cities and human settlements inclusive, safe, resilient and sustainable.
12.	Ensure sustainable consumption and production patterns.
13.	Take urgent action to combat climate change and its impacts.
14.	Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
15.	Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat deforestation and halt and reverse land degradation and halt biodiversity loss.
16.	Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
17.	Strengthen the means of implementation and revitalize the Global partnership for Sustainable Development.

## सफलता (SUCCESS)

सफल होने की प्रेरणा किसी मकसद को हासिल करने की गहरी इच्छा से जन्म लेती है। नेपोलियन हिल ने लिखा है - " इंसान का दिमाग जिन चीजों को सोच सकता है या जिन चीजों पर यकीन कर सकता है, उन्हें हासिल भी कर सकता है।"

जाने-माने महान यूनानी फिलोसोफर सुकरात से एक युवक ने सफलता का रहस्य पूछा। सुकरात ने उसे दूसरे दिन सुबह नदी के किनारे मिलने को कहा। दूसरे दिन युवक सुकरात से मिलने नदी के किनारे पहुँचा तो उन्होंने उसे नदी में उतरने के लिए कहा, जब पानी उनकी गरदन तक पहुँच गया, तो सुकरात ने अचानक युवक का सिर पानी में डुबो दिया। युवक पानी से बाहर निकलने के लिए छटपटाने लगा, पर सुकरात काफी मजबूत थे, उन्होंने युवक को पानी में डुबोए रखा। युवक का शरीर जब नीला पड़ने लगा, तब सुकरात ने उसका सिर पानी से बाहर निकाला। सिर पानी से बाहर निकालते हुए युवक ने सबसे पहले हवा में एक गहरी साँस ली। सुकरात ने युवक से पूछा, " जब तुम पानी के अंदर थे तो तुम्हें किस चीज की सबसे ज्यादा ज़रूरत महसूस हो रही थी? " युवक ने जवाब दिया, हवा की। सुकरात ने कहा, " सफलता का यही रहस्य है। जब तुम्हें सफलता हासिल करने की वैसी ही तीव्र इच्छा होगी जैसी पानी के अंदर हवा के लिए हो रही थी, तब तुम्हें सफलता मिल जाएगी।"

गहरी इच्छा हर सफलता की आधारशिला होती है। जिस तरह आग की छोटी लपटें अधिक गरमी नहीं दे सकतीं, वैसे ही कमज़ोर इच्छा बड़े नतीजे नहीं दे सकती।

आसमान के तारे कहते हैं सारे,  
चमकना है तुझे मेहनत और लगन के सहारे।  
आसमान छूना है तुझे प्यारे,  
मेहनत से खुलेंगे सफलता के द्वारे।

**MS. SARITA GUPTA**

**Class Teacher 'IV' G**

## इच्छाएँ

जीवन में परिवर्तन निरंतर चलता ही रहता है। बचपन से लेकर जीवन के अंत तक हर क्षेत्र में होने वाले परिवर्तनों को कोई नहीं रोक सकता। हमारी इच्छाएँ बहुत होती हैं और उन्हें रोकना कठिन है। हमारे जीवन की उन्नति के लिए भी इच्छाएँ आवश्यक हैं। आपके सपने तभी साकार हो पाएँगे जब आप उनके लिए कठिन प्रयास करेंगे। हमें अपनी इच्छाओं को अच्छे और बुरे की कसौटी पर परखना चाहिए। यहाँ अच्छाई का तात्पर्य खुद तथा समाज की उन्नति से है। अर्थात् हमारी इच्छाएं ऐसी होनी चाहिए जिनके पूरा होने पर केवल हमारी ही नहीं, समाज की भी उन्नति हो सके। इसीलिए हमें निरंतर अच्छी इच्छाओं की पूर्ति के लिए प्रयासरत रहना चाहिए।

"हमारी जिंदगी में दो महत्वपूर्ण दिन होते हैं। पहला जब हम इस दुनिया में जन्म लेते हैं। और दूसरा जब हमें पता चलता है की क्यों" - मार्क ट्वेन

**MS. NANDHINI**

**HINDI FACULTY**

Recently I was on a trip to the temples located in Tamil Nadu. What I found in common apart from the peace, serenity and beauty of architecture was the residence of birds in temples. The development of science and technology has rendered certain animals and birds homeless. They have also become a death knell to the poor creatures. So, they have found themselves a habitat, which they think to be safe from any kind of intrusion.

The common house sparrows that we used to see almost everywhere during our childhood are on the verge of extinction. I was amazed to find them in two temples - one is in Kanyakumari district and the other one is located in Tirunelveli district. I have often seen pigeons residing in the tall Gopuram of temples, but I was astonished to find parrots residing in the holes of the wall surrounding the Varadaraja Perumal temple along with pigeons. Each hole was occupied by parrots and pigeons. The sight was really spectacular! Thanks to the strict prohibition of the usage of cellphones within the temple premises, I could not capture this scene on my phone, but this will ever remain green in my memory.

Temples are seen as symbols of austerity. They provide peace to those who visit them. Some temples even provide shelter to people who are left astray by their near and dear ones. Birds, too, have considered temples to be a safe haven where they can live freely.

Wish to travel more.....

## विचार

'जय हो जग में जले जहां भी नमन पुनीत अनल का'

हमारा जीवन विचारों का ताना-बाना है। यह विचार अच्छे और बुरे दोनों ही प्रकार के होते हैं। हमें अच्छे विचारों को नमन कर उन पर अमल करना चाहिए।

विचारों के पृष्ठभूमि बहुत सी बातों पर निर्भर करती है। हमारा रहन सहन हमारी शिक्षा, हमारे विचारों को दिशा प्रदान करते हैं। इसलिए हमें अनवरत विचारों की शुद्धि पर कार्य करते रहना चाहिए। ऐसा करने से हम अपना और अपने समाज को कल्याण के मार्ग पर अग्रसर रह पाएंगे।

## ENVIRONMENTAL FUN FACTS

The environment around us is full of amazing features and facts you might not know of. One of the best ways to appreciate the earth around us is to learn more about how we interact with nature. Here are some cool environmental facts you might not know:

1. Around 27,000 trees are cut down each day. One single recycled edition of the New York Times newspaper could save 75,000 tree.
2. Fungi plays a highly vital and protective role in the environment. From digesting minerals out of rock formations to consuming fossil fuel spills, and even de-radiating the environment.
3. Ants weigh more than humans. The combined weight of ants on the planet is higher than all human beings. The world has over 7 billion people, and 100 trillion ants.

### EARTH - QUICK FACTS

- ❖ Earth is the planet we live on.
- ❖ It is the third planet away from the sun and the largest rocky planet in the solar system.
- ❖ Earth is about 4.5 billion years old.
- ❖ At the moment it is the only planet known to support life.
- ❖ About 70 percent of the Earth's surface is covered in liquid water.
- ❖ The Earth is made up of four layers.
- ❖ We live on its outer layer, or crust.
- ❖ The crust floats on a layer of extremely hot rock called the mantle.
- ❖ Below this, our planet's center, or core, is made of the metal iron.
- ❖ Earth layers like an onion.
- ❖ The deeper the layer, the hotter it is, with the inner core a scorching 10,800°F (6,000°C).

## FRIENDSHIP OF A WOODPECKER AND A SQUIRREL

7

Once upon a time there lived a squirrel who had no friends. It had no house either. It lived alone. It jumped from one tree to another tree every night to sleep. It didn't like to do that. One night when he was sleeping, he suddenly fell from the tree and got hurt. It cried loudly in pain.

A woodpecker heard this and took the squirrel to the woodpecker's home. Next day when both woke up, the woodpecker asked the squirrel why he was not at his home the day before. Squirrel replied sadly that he had no home and no friends. Also, he had to jump every tree to sleep. Then the woodpecker asked the squirrel, "Would you be my friend? I will make you a cozy house to live in." "Really?" the squirrel asked in wonder. Woodpecker said "Yes".

Then two of them chose a tree and the woodpecker started making a hole in the tree. It built a cozy house for squirrels. Squirrel was happy to see the house and thanked the woodpecker for the new house. Woodpecker said, "You are welcome". Squirrel moved to that house and both of them stayed as friends forever.

Moral of the story: Be kind and helpful to others.

## MY FANTASY

Last Friday I went for a picnic . Friends, do you want to know where I went? I went into real space where the stars and moon are found. I went in a rocket, at a very high speed ..... whoooooooooooooosh!!! I was floating in the rocket. I landed on the moon. There I met an alien . Soon we became friends and we played a lot for a long time ... till the sunshine went away.

On the way back home my alien friend dropped me in the garden in front of my house in his wonderful spaceship . While saying bye to my friend, my eyes watered and I was crying . I heard my brother asking me. Why are you crying? Then I realized I was dreaming the whole time.

## INTERESTING FACTS ABOUT COUNTRIES

1. Bolivia is the flattest country in the world.
2. Russia is the world's biggest country.
3. Vatican City is the world's smallest country.
4. China is the world's most populous country (1.426) billion.
5. When it's summer in Europe, it's winter in Argentina.
6. Saudi Arabia is the largest oil exporter in the world.
7. Chad (South Africa) has the richest resource of Gold and Uranium.
8. New Zealand has a hill with the world's longest name: Taumatawhakatangihangakoauauotamateaturipukakapikima.
9. More than half of Sweden is covered by forest.
10. The world's happiest country is Finland.

## FACTS ABOUT WATER

Every day, after Lunch Prayer, we remind the students to drink plenty of water. Here is why water is so important for us.

- 70% of human brain consists of water.
- Water makes up 75% of our body weight.
- 69% of freshwater on earth is trapped in glaciers.
- We can live without water only for a week.
- Children in the first six months consume seven times more water than average adult.
- It boosts skin's health and beauty.
- A healthy person can drink 48 glasses of water per day.
- Tissues and organs are mainly made-up of water.
- Water helps to regulate body temperature.

## RIDDLES WITH ANSWERS

1. It belongs to you, but your friends use it more. What is it?

Answer : Your name.

2. What starts with a P, ends with an E and has thousands of letters?

Answer : The post office.

3. There are three apples in a basket and you take away two. How many apples do you have now?

Answer: You have two apples.

4. What begins with T ends with T and has T in it?

Answer: A teapot.

5. There is one word spelt wrong in every English dictionary. What is it?

Answer: Wrong.

## DIWALI CELEBRATION

The word Diwali automatically adds a smile to the face of every Indian because it is one of the most awaited festivals of Hindus in India. Other names of Diwali are Deepawali or Deepavali. It is also known as the festival of lights.

This festival is celebrated for ages when Lord Rama arrived in Ayodhya after killing Ravana. People were filled with joy to welcome their king and the entire city was decorated with lights.

There was a mode of celebration everywhere and a variety of sweets and other delicious recipes were made. Even today we celebrate this occasion with the same spirit. Even today people decorate their house and welcome Goddess Lakshmi. Rama and Sita were incarnations of Lord Vishnu and Goddess Lakshmi on Earth. People also visit their near and dear ones and offer sweets and make their celebration more special.

## EASY MATH CONVERSION

### EASY MATH

#### METRIC CONVERSION FOR LENGTH

1) 5 km = \_\_\_\_ m

- Write 5 in km and 0 in meter.
- Fill up the boxes in between km and m with 0's

KILOMETER (km)	HECTOMETER (hm)	DECAMETER (dam)	METER (m)	DECIMETER (dm)	CENTIMETER (cm)	MILLIMETER (mm)
5	0	0	0			

- So, we get 5000 m as answer.
- 5 km = 5000 m

2) 6 cm = \_\_\_\_ m

- Write 6 in cm and 0 in m.
- Fill up the boxes in between mm and m with 0's

KILOMETER (km)	HECTOMETER (hm)	DECAMETER (dam)	METER (m)	DECIMETER (dm)	CENTIMETER (cm)	MILLIMETER (mm)
			0	0	6	

- Put dot (.) in meter as (0.)
- So, we get 0.06 as answer.
- 6 cm = 0.06 m

## LET'S PRESERVE OUR NATURE

The sun is shining

The sky is blue

The birds are flying

And the breeze is cool.

Mother nature is trying her best

To give nothing but beauty

But what do we do?

Make her a mess.

Let's make her the best

By polluting less and less

And preserve her green dress

For our kids and the rest.

## ARUN AND THE GHOST

Once there was the ghost named Iruttu. He lived in the house where Arun and his parents came to live in. Arun's father got a job in Gujarat. Arun was excited to see the new house. He liked the house. He went to the bedroom. He did not close the door but the door closed on its own. He was scared and he shouted, "Amma."

Arun's mother came and she asked, "Why did you shout, Arun?" Arun told her about the ghost. Then Arun's father came to ask what happened. Just then mother received a call and Arun's father was on the line.

Mother was surprised because just then she had seen her husband in Arun's room.

Mother screamed. Arun's father declared, "We are moving back to Chennai."

We don't want to live in a haunted house."

Arun, his parents & the ghost were all happy.

## GREAT SCIENTIST

### Darwin's finches

Charles Darwin was a famous English naturalist (an expert in the natural science). While carrying out his research work, he once visited an island named Galapagos. There he noticed some birds, which he called finches. There were twelve different types of finches present on the island and each type had a different beak. The size and shape of the beak depends on the kind of food the birds ate. Those birds were later named Darwin's finches.

## POSITIVE THINKING

Positive thinking is an upbeat mindset that enables people to do good deeds under any circumstance. The mental, emotional, and physical health of a person are significantly influenced by positive thinking.

Positive thinking does not imply ignoring reality or downplaying existing issues. It simply implies that you approach both positive and negative circumstances in life with the hope that everything will work out.

Extensive research has examined the impact of positivism in promoting optimism in terms of one's physical and mental health. Numerous physical health advantages of positive thinking include improved physical health, better stress management, an extended life expectancy, improved pain tolerance, increased great resistance to illnesses like the common cold, a reduced risk of heart attack, and lowered blood pressure. So, Positivity has several advantages for mental well-being, including improved mood, lower stress, increased creativity, sharper understanding, improved coping mechanisms, and remarkable problem-solving abilities.

## TITANIC

RMS Titanic, a British passenger liner operated by the White Star Line, sank in the North Atlantic Ocean on 15 April 1912 after striking an iceberg during her maiden voyage from Southampton, UK, to New York City, United States. Of the estimated 2,224 passengers aboard, more than 1,500 died, making it the deadliest sinking of a single ship up to that time. It remains the deadliest peacetime sinking of a superliner or cruise. The disaster drew public attention, provided foundational material for the disaster film genre, and has inspired many artistic works.

## INTERESTING FACTS

1. The name 'India' is derived from the river Indus.
2. Land of many 'Firsts', India invented Chess, Snake & Ladders, Shampooing, Algebra and More.
3. India has the second-largest population in the world.
4. India has the world's second-largest military, with over 1.45 million active troops.
5. During WW2, India produced the largest volunteer Army in world history.
6. 5000 years old, Varanasi is one of the oldest inhabited places in the world.
7. The number of people travelling in the Indian Railways every day is equal to the population of Australia.
8. The second largest network of roads in the world.
9. Mawsynram in Meghalaya state is the wettest place on Earth with 11,873 millimeters of rain annually.
10. There's a day dedicated to Dr. A. P. J. Abdul Kalam in Switzerland called Science day.

## FRIENDSHIP

Friendship is believing in each other, friendship is caring, sharing, and sticking together. Friends are an important part of our life. We play with them, we share with them, they make us happy. Friends are great fun, but not all friends are good friends, Good friends are those who help you in time of need. They love you; they will not leave you when you need help.

Friends can show kindness to each other in many ways. You can show kindness too, they are not who boast of themselves. They will not leave you in the midway. They are the ones whom you can put trust to help you out, they never let you drown in the deepest ocean, they are with you always.

Friendship day is dedicated to the friends with whom you share the precious moments of life, and this day is being celebrated on the first Sunday in the month of August in India.

**1. Around 27,000 trees are cut down each day.**

The world has over 3.04 trillion trees in the world. However, 27,000 of them are cut down daily to make toilet paper.

**2. 78% of marine mammals are at risk of choking on plastic.**

Seventy-eight percent of marine mammals are at risk of accidental deaths, such as getting caught in fishing nets. Plastic bags and other plastic garbage that ends up in the ocean kill over 1,000,000 sea animals every year.

**3. Ants weigh more than humans.**

The combined weight of ants on the planet is higher than all human beings. The world has over 7 billion people, and 100 trillion ants.

**4. A glass bottle can take up to 1 million years to decompose.**

Glass takes a very, very long time to break down. It can take a glass bottle more than a million years to decompose in the environment, possibly even more if it's in a landfill. This means that glass manufactured and used 5000 years ago may still be present in the environment. Because its life cycle is so long, and because glass doesn't leach any chemicals, it's better to repurpose and reuse it over and over again before recycling it.

**5. Recycling one glass bottle saves enough energy to power a normal light bulb for about four hours.**

While glass does not decompose easily, recycling it might be more beneficial to the environment. The recycling of one glass bottle not only saves energy but the energy saved can also power a normal light bulb for about four hours.

**6. Paper from trees can be recycled 6 times.**

Paper comes from trees and can be recycled a maximum of six times, after which, its fibers become too weak to hold together.

A.K Saisheshan secured third place in Male Individual Kumite-45 kg by participating in 38th Tamilnadu-sub junior karate championship. Kudos to him .

Baby Dhiya brought laurels to SRMPS by participating in a 75 minutes long skating marathon, which was an initiative by Global records and Research foundation and Hindustan Sports Foundation at St. Joseph's Matric HSS, Maraimalai nagar, Chennai, Tamilnadu on September 15, 2022. She also participated in Speed Skating Championship 2022, organized by Chengalpet District Skating Association which was held at Shri Maharishi Vidhya Mandir campus, Mahindra City and secured 6th position under fancy inline category for under 6 years age group. We are proud of her and wish her greater success in the years to come.

Very glad to announce that we are registered Winners in Kanchi Cluster Football Tournament - grade 9 and 10 category.. Congratulations boys

Celebrating the Success of Master Sanjay Krishnaa , of LKG, for making his way into the Indian Book Of World Records 2022. An emerging star on the horizon of Speed Skating, Sanjay Krishnaa won the 2nd prize in 100mts and the 3rd prize in 200 mts in the Chengalpet District Speed Skating Championship 2022. Looking forward to more accolades from this child prodigy.

Library week was observed from 14.11.22 to 19.11.22 to educe the importance of reading and to inculcate reading habits in students. Several activities were conducted to fructify the celebration.

Students were engaged in a quiz, Who's the author round, Unscramble words and the like to get in tune with the motive behind the celebration. Students felt happy about their enormous learning experience.

Proud Moment for SRMPians The SRM Public School put up a stellar performance at the PARAKRAM 2022 organised by Sree Gokulam Public School, Chengalpet, where more than 25 school of good repute participated. Victory kissed SRM's feet in almost every event that the school participated in. It was raining accolades from Day 1 of the Event and Lady Luck smiled down on the Team SRM even on Day 2 with school finally lifting the Overall Championship Trophy with 32 points on the scoreboard. Kudos to the Team Members. Congratulations Team SRMPS.

Heartiest congratulations to the little Champions from the Primary section for bringing Laurels in the recently concluded Kanchi cluster Athletics Tournament.

We are proud to announce that Karthik Sarvesh and Hariharan from grade 9 secured the 3rd position in the Science Quiz conducted by the SRM School of Teacher Education and Research, Kattankulathur, on 15.11.2022. The boys won a handsome cash award. Way to go boys! Well done!

We are proud of MasterJovan of grade 1E who won 1st prize in speed skating. Bravo, Jovan!

Revuse the annual Entrepreneurship Fair turned out to be a thumping success, as the young entrepreneurs of grades 7 & 8 set up their stalls of eatables, handmade crafts and games. The students from grade 4 onwards visited all stalls enthusiastically and within no time the budding entrepreneurs had sold all their products. The entire event was a great learning experience for the entrepreneurs who made their business proposals, estimated their investments, fixed the selling price and calculated their profits.

Learning becomes fun when it extends beyond the four walls of the classroom. The students of grades 7,8 and 9 enjoyed a trip to the Egmore Museum on 8th November, while the students of grade 11 explored the world of books in Connemara Library. The students returned enriched by their experience from the field trip.

SRM Public School hosted the Tritya Sopan Test Camp of the Pallava Mandalam District at its campus in Nandhivaram, GUDUVANCHERY on 17 November 2022. 247 Scouts and 188 Guides from 16 Schools participated with 29 Unit Leader. The Team was lead by Mr. Saranraj, District Organizing Commissioner ( Scout). They began with a Prayer after which Oral test was conducted from the Pravesh and Pratham Sopan portions. The written test was conducted post lunch. It was a good occasion for the scouts and guides from across the district to interact with each other. The camp concluded at 4:30 pm.

The Kindergarten and Pre Primary wing of SRMPS celebrated Showcase Day on Friday (18.11.22) to give a platform for the little ones to exhibit their talents. The corridors echoed with the happy chatter of little ones happily expressing themselves through colourful drawings, music and dance.

"CHILDREN"-The world's most valuable resource and the best hope for future.

SRMPS was filled with exhilaration and elation among the students as Children's Day was celebrated on 14th of November in the campus. All the children were dressed up well & a spectacular show was presented by the teachers, linning up with events like special assembly, group song, Dance performances, games , movie, class potluck lunch, greeting cards & takeaways for the students.

"The Road Ahead" a career fair organised for the students of the senior and senior secondary sections, was met with a very enthusiastic response from the students. The first session with Mr Udaya Sankar, the Deputy Director SSC NASSCOM, on the topic 'Future Skills for Future Readiness' was extremely engaging and enlightening. The second session titled Career Options with the Director of Admissions and Subject Experts from various fields proved highly productive with students asking innumerable questions related to making informed career choices.

Felicitations to our students Harkesh, Divyansh Singh and Faizan who were declared winners in the Junior Category event space Mission at the Robozest Contest organised by Sairam Engineering College, on 26.11.22.

An in service programme was organised for the essential staff of the school on Saturday 26.11.2022. This initiative helped to sensitise the drivers and sub staff to execute their duties with more care and caution.

Kudos to Master V Barani Vishwanathan for qualifying to receive the yellow belt in Silambam at the contest organised by Esan Silambaalayaa on 26.11.22.

Master AK Sai Seshan brought Laurels to the school by securing third position in the PEDHAS State Level Inter school Karate Championships 2022 organised by the Madras Christian College on 23.11.22.

Master AK Sai Seshan brought Laurels to the school by securing third position in the PEDHAS State Level Inter school Karate Championships 2022 organised by the Madras Christian College on 23.11.22.

Master N Raahil deserves special commendation for receiving the 3rd position in the Kata Event organised by the Ken-Bu - Kai Shiti Ryu Karate School on 27.11.22.

Field trip to Vandalur Zoo Anna Zoological Park is one of the modern and scientifically managed zoo. A field trip to the zoo was organized for Tiny tots to explore and experience the world of amazing animals and birds. Zoo is an excellent place to observe animals in their natural environment. Children were delighted and fascinated by seeing various animals like Lion, Elephant, Barking Deer, Black Buck, Chimpanzee, Langur, Bengal tiger, White tiger, leopard giraffe ostrich, emu e.t.c It was an enriching life experience and extended learning exposure on "Rumble in the jungle".

Animal Kingdom Day: Our tiny tots celebrated the "Animal Kingdom Day integrated with brown and orange colour" on 29th November 2022. With a great ripple of excitement our kids entered into the "Happytots animal park" to witness the display of brown and orange animals. It was a visual treat and an experiential learning about the habitats of the farm, wild and the aquatic animals in our courtyard. Show and tell activity was organised to strengthen the public speaking skills, to build up the self-confidence and self-esteem. This activity enhances social, emotional and communication skills of the budding stars. Children loved the scintillating puppet show on "The clever monkey" which received aloud applaud from the them. They were ecstatic to do the group activity and individual activity as a part of integrated theme based learning. Happytots animal park filled the hearts of our kids and will cherish the learning with an exhilarating experience.
